ZERO CARBON GOALS

Green accelerate sustainable development

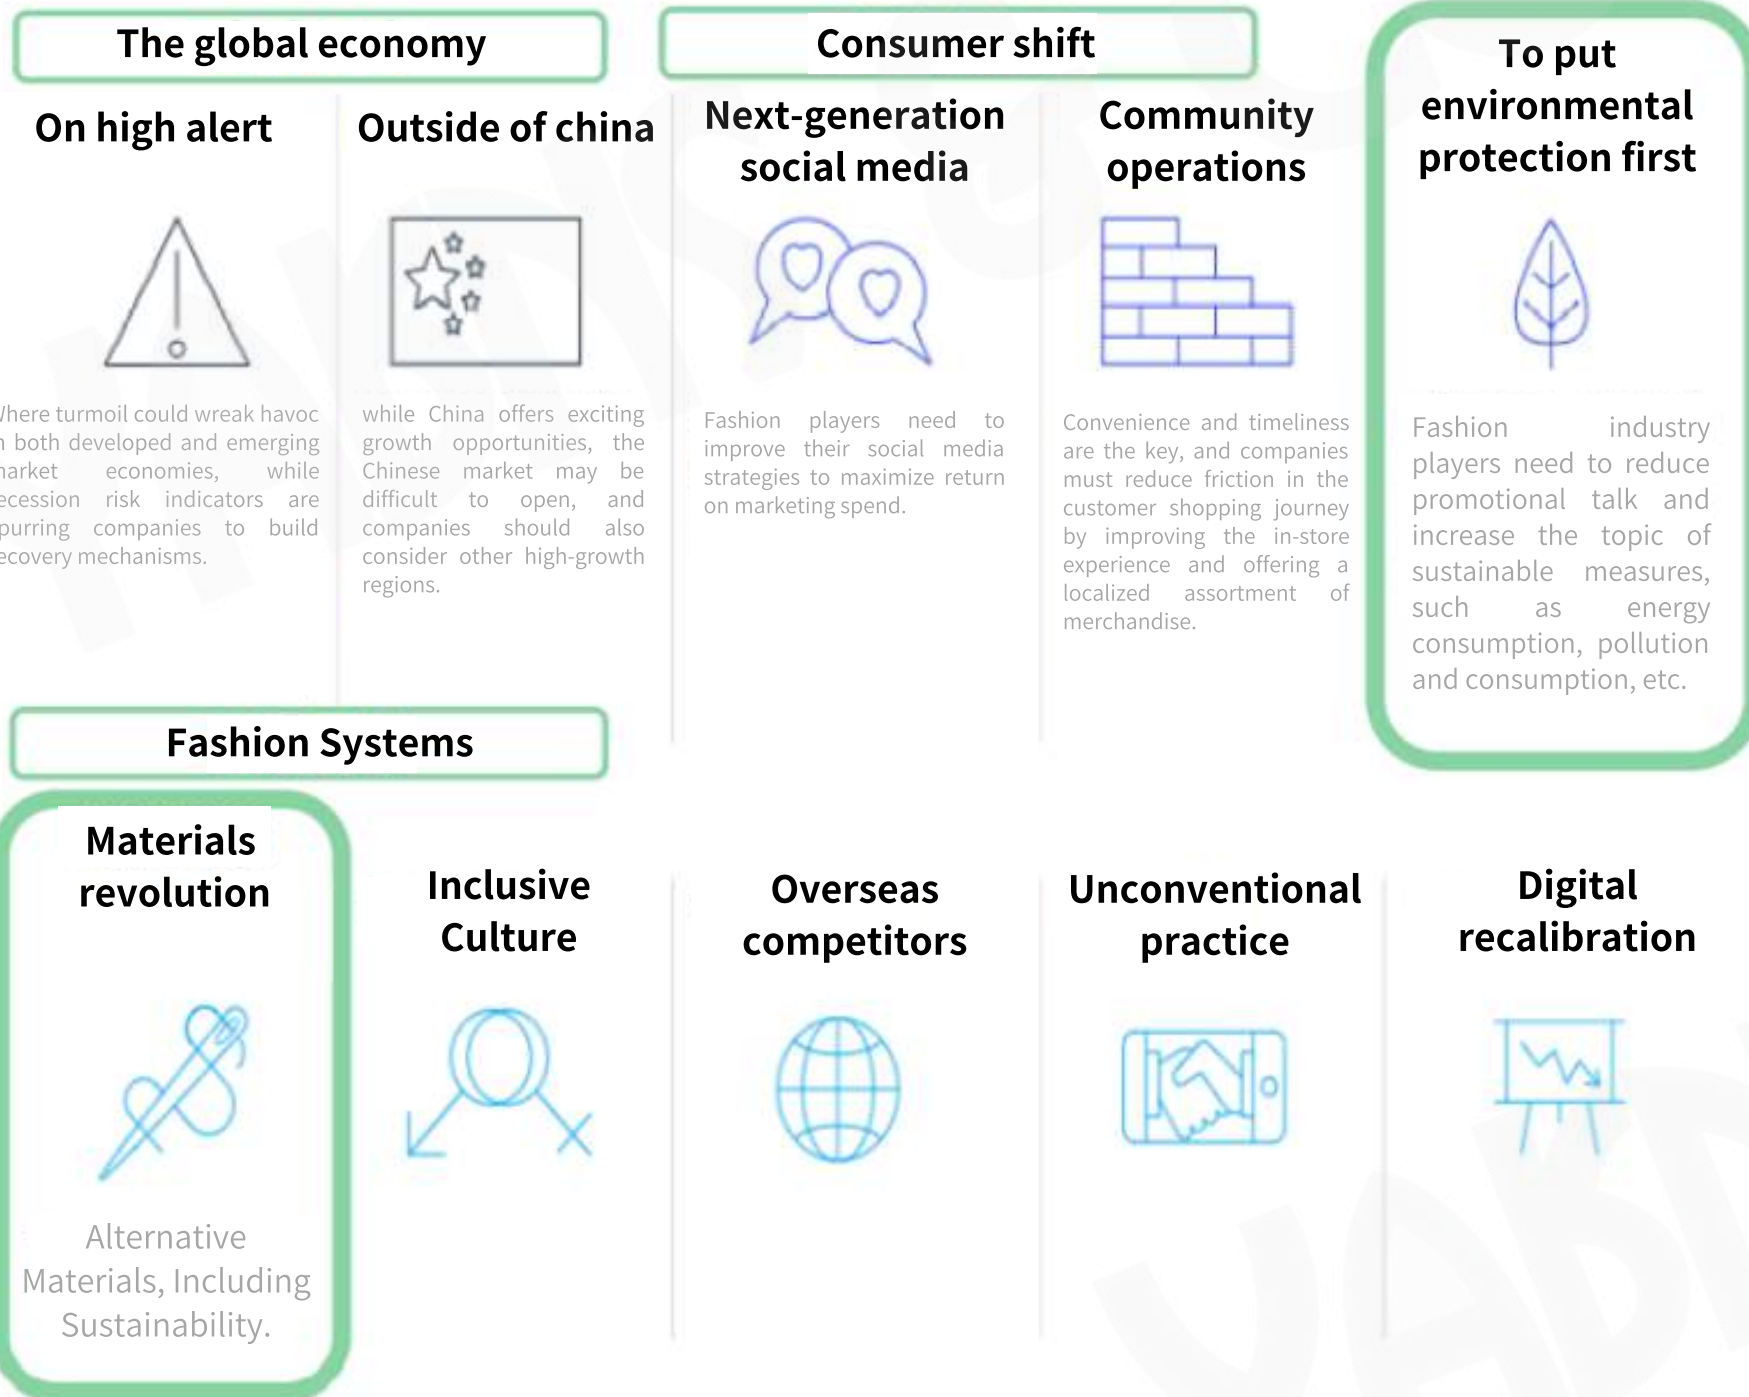

First understand the sources of greenhouse gas emissions

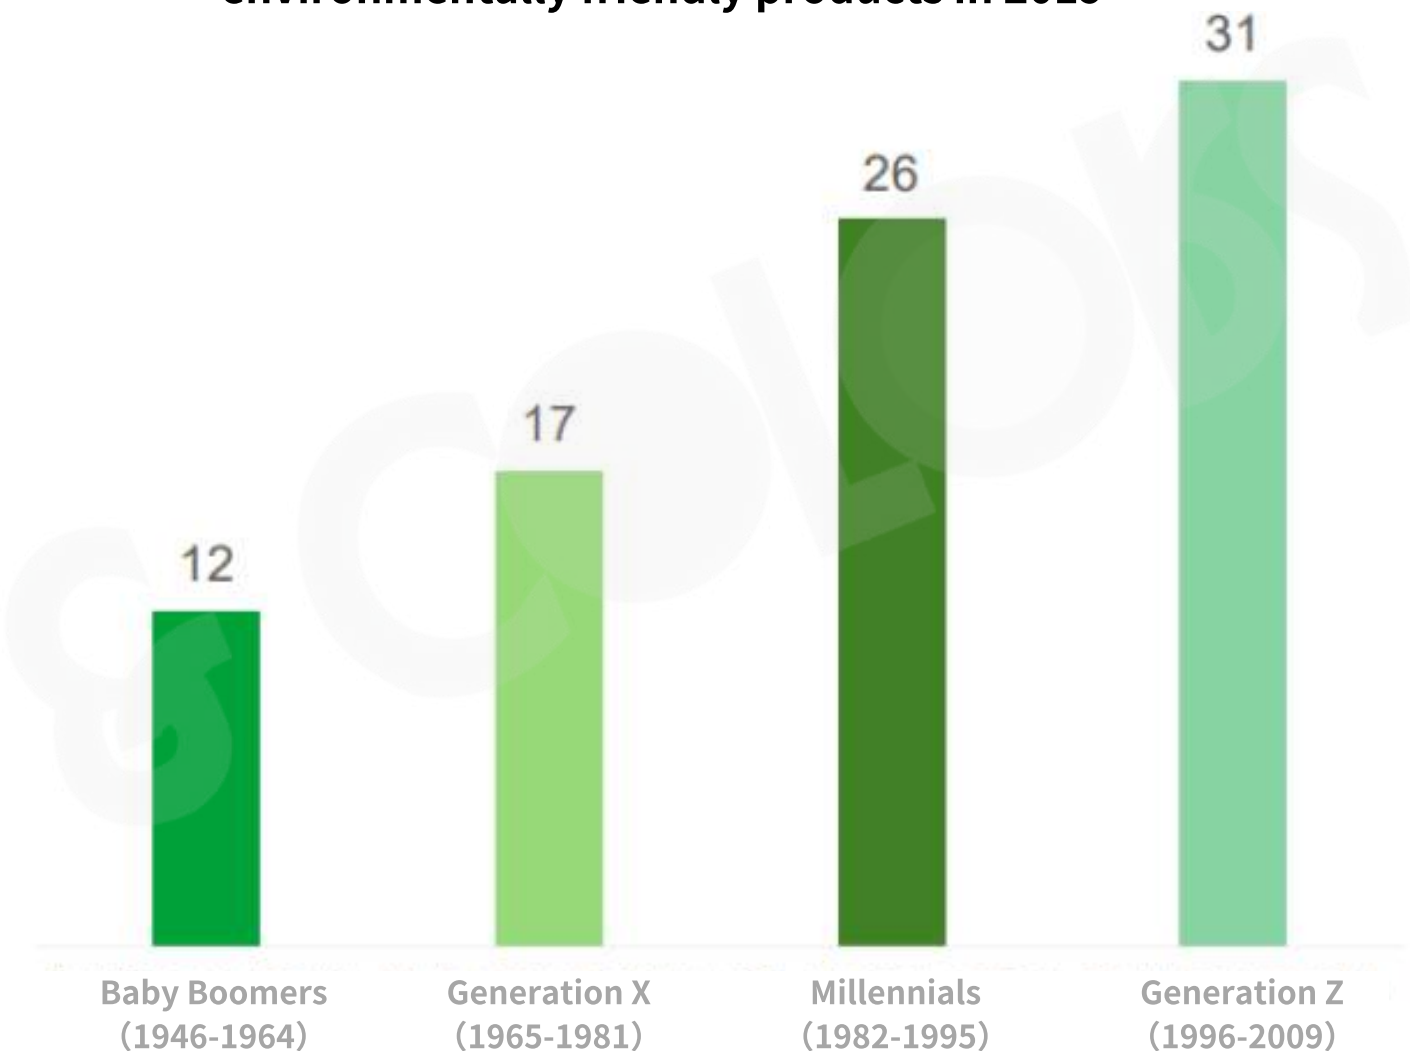

The trend of environmental protection living consumption concept is rising **YABNS & COLOBS**

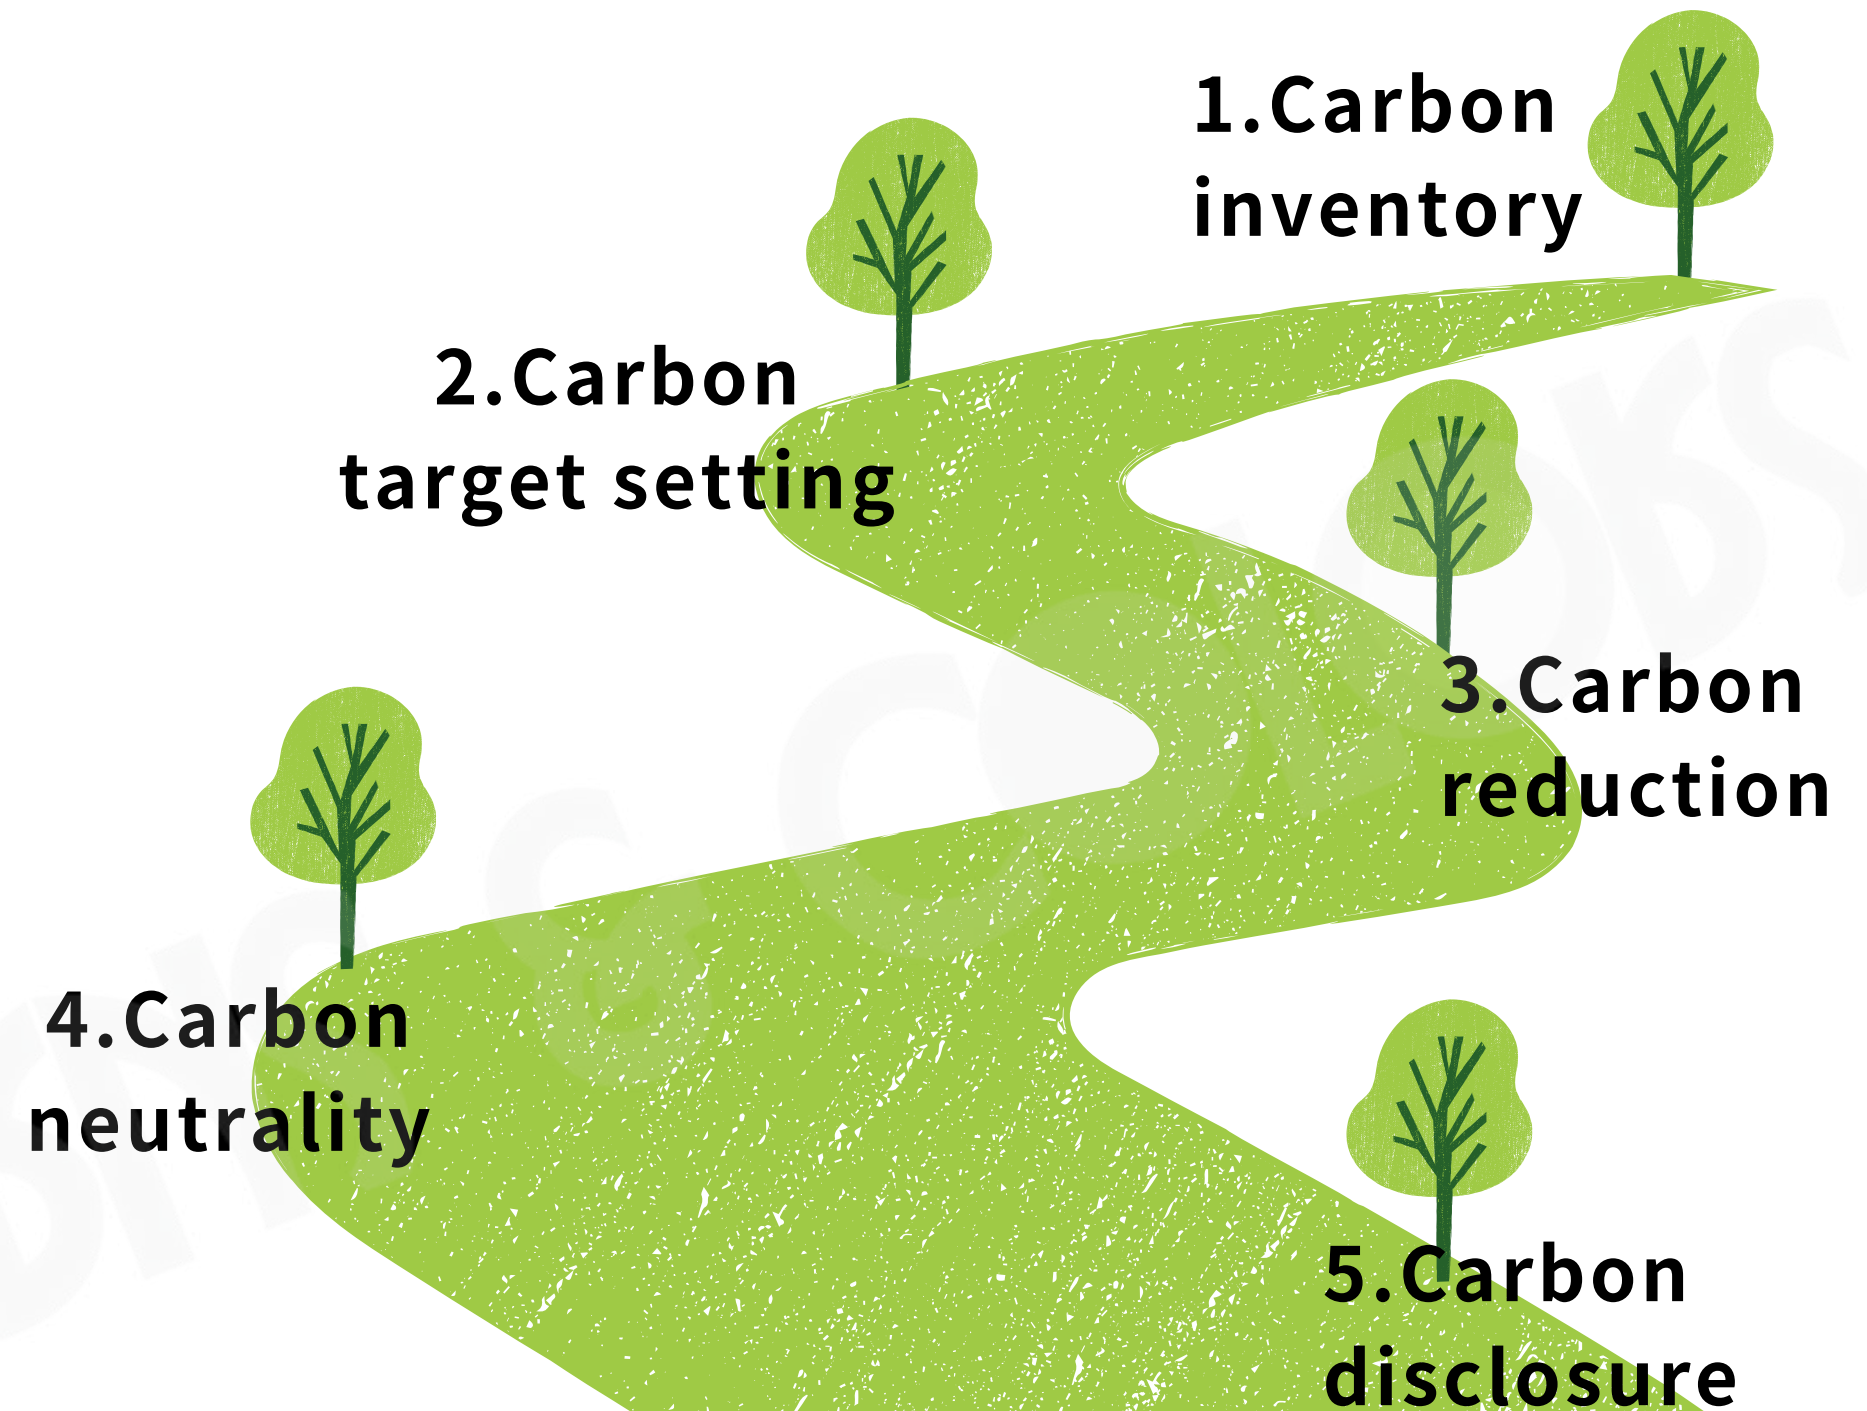

"A growing number of younger generations say they are willing to pay more for products that have the least impact on the environment"

Percent of U.S. consumers willing to pay more for environmentally friendly products in 2019

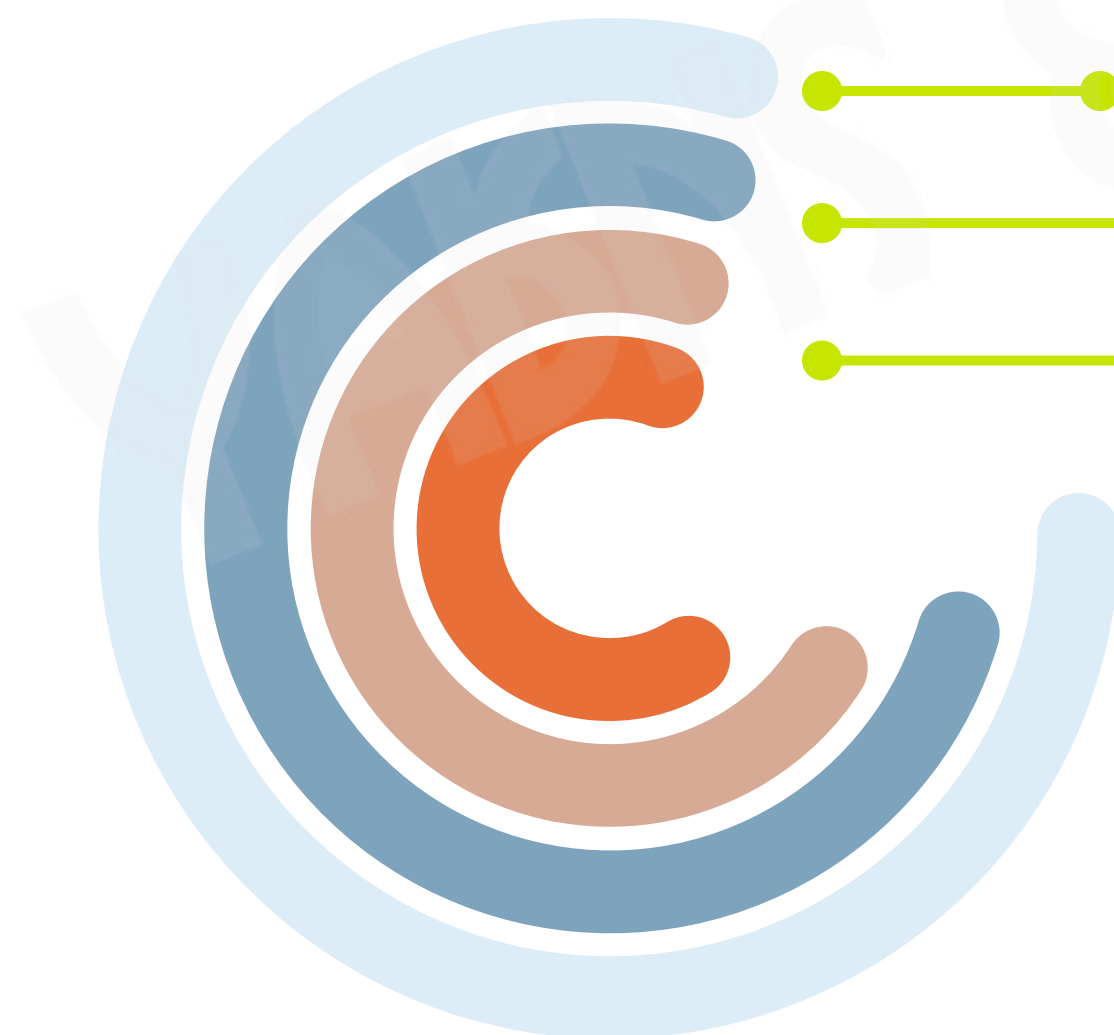

Act now, YARNS&COLORS roadmap to a carbon neutral future

1. Professional and authoritative carbon inventory report

Report

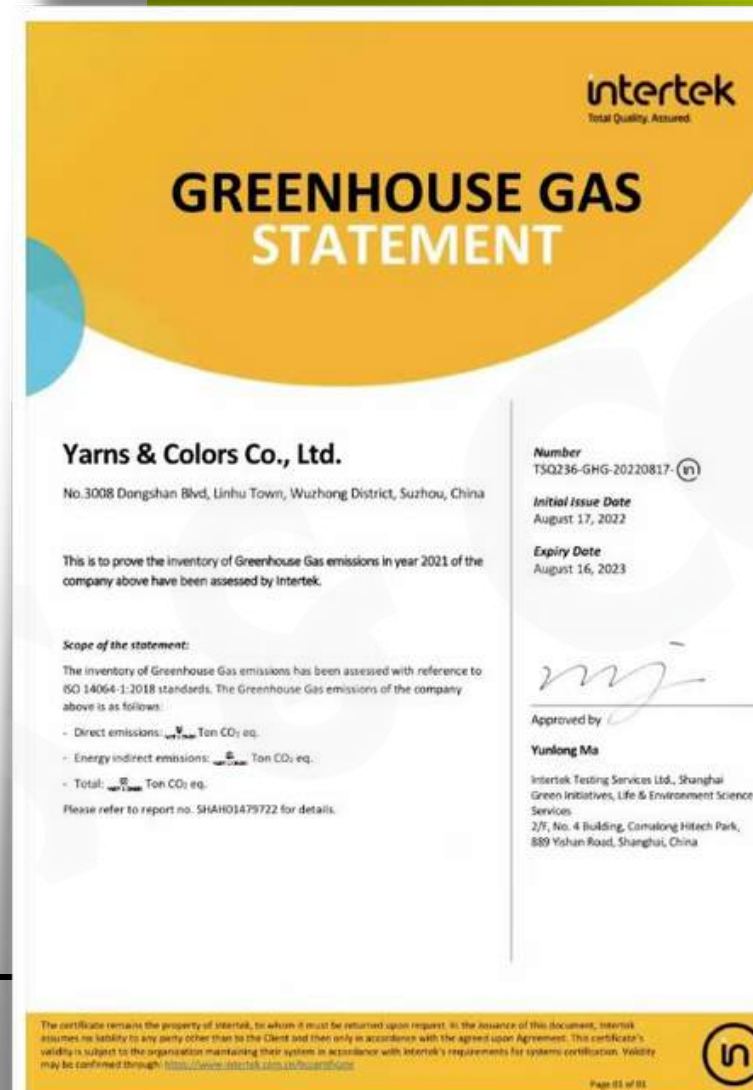

● DIRECT EMISSION CO₂ CONTENT

● INDIRECT ENERGY EMISSION CO₂ CONTENT

● TOTAL EMISSION CO₂ CONTENT

*Calculated by the Intertek team based on the company's GHG emissions

2. Our carbon goals and commitments

Goal 1

2021 carbon emission 2025 carbon emission

To reduce company CO2 emissions by 30% by 2025 compared to 2021

Goal 2

To truly achieve carbon neutrality by 2050

1CO2=1 ton of CO2 emission reduction

Goal 3

Carbon f of snowy and Athena products + LCA life cycle assessment to finally achieve net zero emissions

-Carbon emissions,
-Product hazards,
-At the same time, have a positive impact on society

2. Our carbon goals and commitments
